About RioGrand Company

RioGrand is the leading manufacturer of sports and fitness equipment in India.

Our customer is globally outspread. We offer the best quality gym products and the largest range of dumbbells and weight plates. and across various categories of gym dumbbells, plates, and gym flooring.

Like, Hex Dumbbells, Fixed-weight dumbbells, Adjustable dumbbells, Kettlebells, Round dumbbells, named dumbbells, Vinyl Dumbbells, Neoprene Dumbbells, Barbell, Trig rip plate, cast iron weight plate, Bumper plate, Triangle Plates and Rubber mat (Gym Flooring), etc. we are a gym dumbbells supplier mentioned above.

Why RioGrand Company

Most of the products are manufactured from raw materials to the finished product, here in India. It is guaranteed to meet the specifications of each manufactured product, test, inspection, and performance.

01

We manufacture all the highest standards, ensuring that every step of the development process produces affordable products with no compromise on quality or reliability.

02

With 2 years of experience in the manufacturing industry, we deal with a number of global manufacturers, allowing us to deliver a broad range from all our international distribution centers.

03

To ensure our customers are experiencing minimal downtime, all our components go through rigorous quality control processes.

04

As part of our environmental policy, we constantly review our industrial processes to ensure they adhere to the appropriate industry standards, and in some cases, to exceed them.

Our goal at RioGrand Company is to Spread fitness awareness and get you fitter by making it as easy and as fun as possible for a longer, healthier, happier life.....

We understand the needs of our customers and offer the best competitive price and the best product. and we will not stop trying to provide our customers with timely delivery and reliable services.

our vision is to make people fit by spreading fitness awareness and Make fitness equipment available in each nook and corner of the Planet Earth.

Provide the highest quality of Health and Fitness Products that guarantee a safe and satisfying user experience.

Manufacturing Process

Sand Muller Machine

We have a 12 Sand Miller machine. Which demonstrates our production capacity. With the help of which we fulfill the demand of our customer in time. For use in sand molds, sand needs to be well mixed and knitted. Sand, water, and clay are used to mix sand. Sometimes chemicals are also used.

Casting Foundry

Our casting foundry has the capacity to melt 10 to 15 tons of metal per day. We offer Dumbbells, Weight Plates, Other Machinery and Industrial Casting. We have cast more than 500 products. The molten metal is meticulously molded. Once in the mold, the metal cools and solidifies into a hollow cavity shape.

Shot Blasting Process

This shot blasting machine's capacity is 250 kg. This process is sent to clean dust and burr from dumbbells and weight plates. Is then forward for the next processing.

Grinding Process

A grinding machine is used to finish work pieces from dumbbells, handles, weight plates, and other casting products to the product. High surface quality and high accuracy of shape and dimension. which grinding removes high volumes of metal very rapidly.

Knurling Process

The knurling process is a work of art on the outer diameter of the handle. Diamond knurling used for gym equipment handled. Diamond knurling makes it easier to lift weights physically. Or giving good grip. The diamond knurling done by our team is accurate. This lasts a long time.

Manufacturing Process

Welding Process

We have Three MIG welding machines are available. Welding process a part of all making process, because this process are complete the and final shape given of gym equipment. Our welding machine operator is very experience person. The handlebars of the dumbbells are joined by welding. that's unbreakable joints.

Rubber Mixing

The natural rubber used for molding is prepared in a rubber mixing machine. Yes, the process of making this rubber is in-house. When making natural rubber, great care is taken to maintain the quality of the rubber and its various powders or chemical proportions in the chemical mixture to make it strong and durable.

Molding Process

We have 13 molding machines available for molding on dumbbells. Rubber molding is the shape formed by pressure and heating. Yes, the casting dumbbells are covered with a rubber cover. So that its elasticity increases. We use natural rubber for molding rubber on castings. So that gym equipment becomes sustainable.

Label Making Process

The label-making process is one of our meticulous works. Creating a label in a label making machine is an art. Which our team knows very well. We take care of customer ideas when creating labels. We work with precision in logo, size, and color combination as the customer says in this rubber label.

Packing Process

The first part is packed in a plastic bag for inner packing. Then kept in 3 ply boxes. And has been sealed. Boxes are arranged on pallets for outer packing. Then strip-warping is done. We use silica gel to protect from the environment. It is then labeled.

We Are OEM / ODM Supplier

We are an Original Equipment Manufacturer (OEM). This helps to promote your brand. The meaning of the word has evolved over time, and today it refers to various things. We work with precision on customers' logos, designs, colors, etc. in the Original Design Manufacturer (ODM). We know how important a customer's brand is. Therefore, its logo and design are meticulously worked out.

We Provide Our Customers With Fitness Products In Their Preferred Brand And Shape. Comes To Take Great Care Of Him. The Most Important Thing For Use Is To Maintain The Brand Value Of Our Customers. Because We Are OEM Suppliers, Similarly, We Have Priority In ODM.

Our Products

Our strong technology and service background helps in providing solutions for gym equipment.

The fitness equipment fulfill the requirements of every individual, be it muscle building, height increase, tummy trimming or overall fitness for men & women of any age group, the unique potentiality of the product speaks for itself.

The Best Home Gym Equipment Break Down Into Many Categories. We've Selected Products And Accessories Based On The Most Popular Kinds Of Workouts, Such As Running And Weight Lifting.
